Brent

Well..... Too bad bill wasn't on today's call with congressionals or yesterday's call with the chief of staff to Kirkpatrick. Were you on today's congressional call? Any notes you have?

Adding to Jessica's suggestions. Just the points I went over yesterday and today.

We don't expect impacts to lake Powell but waiting for sampling results to confirm.

Plume has visibly dissipated and huge dilution factor when entering lake Powell.

Describe sampling efforts and coordination efforts in that area.

Stick to press releases and what's on epa website for spill.

Rusty - suggestions?

Bill - u can call me.

I suggest two things: script fr the administrator's press statements and, since he will be doing sampling, EPA's latest press statement on samples, upstream as they may be. He is newer on the scene so it seems to make sense to say I need to check and get back to your office as soon as possible.

Subject: Kirkpatrick - a couple of meetings tomorrow

Here are her official meetings tomorrow. The meeting with the Mayor and the Chamber, might be a good one for the intergov person to attend.

Thanks!

Carmen
